

## BoXo Dive

### BoXo Dive IP65 BLACK/YELLOW

The original BoXo Dive is a small, robust and smart Y-splitter.

The Y-splitter enables a fast and efficient implementation of IP65 applications e.g. walk paths / stairs / entrance lights of event locations and further outdoor fields of application.

The original BoXo Dive persuades with a simple and chic design; The very small dimensions of the enclosure and a minimum of weight gives this Y-splitter a professional and unique touch. A cabling of spotlights can be realised time-savingly and convenient. Wherever you use it on stages or fair booths there can be taken full benefit of all these features.

The BoXo Dive is a real IP65 Y-splitter.  
The product is dust-proof and water-jet proof to IP65.

This products completes the existing PowerCon TRUE1® connector system of the Neutrik® AG and can only be used with the following plugs:  
NAC3FXW, NAC3MXW and NPFK-X-Y-Z.

IP65 protection can be only realised in mated condition.  
BoXo Dive complies with all EU safety regulations.

#### TECHNICAL DETAILS
